## How to change your computer log-in password

Lock
Sign out
Change a password
Task Manager
Cancel

 To change your password, press the ctrl-alt-del keys (at the same time) on your computer keyboard.

 Choose the Change Password option that appears on the screen.

- 1. The **Change a password** box will appear (with your student ID)
- Enter old password from last week (WEB2020xxxxx) Put YOUR student ID where the x's are
- 3. Enter a new password & confirm it in the last box.
- 4. Hit the Arrow button to submit your new password
- 5. Your **password** should be changed.
- Remember to use the "tab" key or mouse to move from box to box. Do not use the enter key between passwords.
